AMENDMENT

Sir:

In response to a Final Rejection mailed on 08/22/2003 pursuant to a "SHORTENED STATUTORY PERIOD" for reply, applicant filed a New Continuation-In-Part-Application. The above-identified application has been amended as follows:

In The Specification 1.121 as per 37 CFR 1.125, a Substitute Specification is being submitted with a clean version, and a marked up version to show changes made.

(a) Now if the legibility of the application papers renders it difficult to consider the application, the Office may require the entire specification including claims be rewritten.

The paragraphs of the clean version are individually numbered in Arabic numerals about replacement paragraphs.
